1. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-36 is that none of the references cited, taken either singly or in combination, teach or disclose a method of removing a filter cake from, or gravel packing in, a subterranean formation, as in the claimed combinations, including a step of emplacing a weighted encapsulated breaker in a gravel pack in the subterranean formation, which may be adjacent a filter cake, and wherein the weighted encapsulated breaker is encapsulated in a coating comprising a polymer material and a filler material having a specific gravity of at least about 6.5. For example, Hunt et al (5,604,186) discloses an encapsulated breaker for well treatment fluids which may comprise a micron-sized particulate with the polymer coating, however, none of the particulate materials set forth, such as silica or titanium dioxide, possess a specific gravity of at least about 6.5, as required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Suchfield whose telephone number is 571-272-7036. The examiner can normally be reached on M-F (6:30 - 3:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Glessner can be reached on 571-272-6843. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
